

# Template for DISCO action plans

Subsectors 'Certification organization', 'Civil society', 'Service providers & knowledge institutes', and 'Government'

## Instructions

To gather more quantitative insights in what individual signatories are contributing to the DISCO goals in the upcoming years and how the partnership is progressing jointly, the Steering Committee agreed that all signatories will develop and publish individual action plans. These action plans show how they are contributing to the DISCO goals in the upcoming 3 years (until end 2026), and:

- are based on the commitments from the [DISCO declaration](#);
- have a strong link with the indicators from the ISCO Reporting Framework;
- explain how the principles on procurement practices as laid down in the DISCO procurement practices position paper, are being implemented by DISCO signatories.

You are asked to fill below template and submit it by **30 June 2024 the latest** to the DISCO Secretariat: Mark de Waard, [dewaard@idhtrade.org](mailto:dewaard@idhtrade.org) and Lisa Graepel, [graepel@idhtrade.org](mailto:graepel@idhtrade.org).

After submission, all DISCO action plans will be published on the DISCO website. The DISCO Secretariat will analyse and summarise the action plans. The outcomes of this analysis will be shared and discussed during the annual General Assembly at the end of 2024.

For more guidance on defining the actions around the three impact themes, it is recommended to consult the DISCO Roadmaps on [living income](#), [deforestation and forest degradation](#), and [child labour](#). For more information on the quantitative targets, the definitions and usage of the indicators, please consult the [ISCO Reporting Framework](#).

All action plans will cover the period 2024-2026. The quantitative targets **track progress cumulatively until the end of 2026, including what's already been achieved.** . Progressive targets with intermediate milestones could also be included. It is also requested to give a brief qualitative description. Where needed, references to a more comprehensive description of the strategy could be included.

## Plans on DISCO ambitions to enable living incomes

### Contribution to closing living income gaps

Describe in max. 200 words what your organizations' plans are to contribute to the partnership's goals on closing living income gaps.

Steinweg has a more holistic and generic approach towards the objectives of the DISCO declaration. The impact of Steinweg is of a more qualitative nature.  
Steinweg has no quantitative target on either of the indicators yet. We support the target of closing the living income gap by future participation in certification schemes that involve living income. (Fairtrade, RFA, etc.)

Substantiate this by setting a quantitative target on (one of) the following indicators:

- *Total # of publications (evaluations, analyses, studies, etc.) on effective approaches for living income gap closure in supply chains by the end of 2026*

- *Total # of partnerships/coalitions actively involved in around living income in cocoa producing countries by the end of 2026*
- *Total # of supply chain partners supported (technically, financially, or through pilots) in the implementation of living income strategies by the end of 2026*
- *Total # of policies around living income influenced by the end of 2026*
